# ROHITH KUMAR TAPPA

(240) 886-9362 • tappa03@umd.edu • linkedin.com/in/rohithtappa • https://roohith47.github.io/
Eligible to work in the U.S. under F-1 OPT (Application Filed October 2026)

## EDUCATION

**University of Maryland, Robert H. Smith School of Business** — **College Park, MD, USA**
*Master of Science in Information Systems, GPA: 3.52/4* — *August 2025 – December 2026 (Expected)*
- Coursework: Digital Transformation of Business, Managing Digital Businesses and Markets, Data Analysis in Python.

**Vignana Bharathi Institute of Technology** — **Hyderabad, India**
*Bachelor of Technology in Computer Science and Engineering, GPA: 8.31/10* — *December 2021 – May 2025*

## TECHNICAL SKILLS

**Languages and Tools:** Python (pandas, NumPy, scikit-learn), SQL, Power BI, Tableau, Microsoft Excel (Advanced), Windchill PLM
**AI and Cloud:** Dify, Claude API, retrieval-augmented generation (RAG), prompt engineering, AWS
**Certifications:** AWS Academy – Machine Learning Foundation, Data Engineering, Cloud Foundations

## WORK EXPERIENCE

**University of Maryland, Robert H. Smith School of Business** — **College Park, MD, USA**
*Teaching Assistant, BMGT301L-0101: Information Systems, AI, and Digital Transformation* — *Fall 2026 – Present*
- Grade biweekly assignments for 52 students within a one-week turnaround, evaluating coursework across Excel and Tableau.
- Provide in-class technical support to 52 introductory-level students on Excel formulas, Copilot, Tableau, and generative AI tools including Dify and NotebookLM, translating technical workflows for non-technical users.

**Stanley Black and Decker** — **Towson, MD, USA**
*Data Analyst and Power BI Intern* — *June 2026 – August 2026*
- Built Power BI framework in DAX classifying 88,314 products across 356 product lines (535 export files) into five structural bill of materials (BOM) tiers, isolating 1,284 products (1.5%) with stock keeping unit (SKU) nesting or multiple catalog items.
- Engineered repeatable Power Query extract-transform-load (ETL) pipeline that scaled from single pilot file to all 535 export files, optimizing oversized exports through CSV conversion and column trimming; delivered three-dashboard Power BI report serving stakeholders and engineers, from executive summary to product-line drill-down and nesting-depth analysis.
- Restructured SKU and BOM reporting from analyst-level detail to decision-driving format based on stakeholder feedback, tailoring insights for engineering vice president audience.
- Led team of seven interns in company-wide Innovation Challenge, proposing onsite tool lockers for apartment communities; surveyed 150+ renters (75.7% interested) and recommended single-locker pilot to senior leadership.

## PROJECT EXPERIENCE

*PreAuth.ai: Prior Authorization Risk Assistant (BUDT 751, Team Project)* — *Spring 2026*
- Built end-to-end Dify workflow on Claude Sonnet that extracts fields from prior authorization packets, retrieves UnitedHealthcare policy context through retrieval-augmented generation, and returns JSON denial-risk score with fixes.
- Automated policy ingestion with Python pipeline that syncs PDFs from Google Drive into Dify knowledge base through dataset API, with automatic chunking and incremental upload log.
- Wrote prompt guardrails and Python parsing nodes to enforce output schema; tested on synthetic prescription packets.

*Forge Analytics: Campus Police Crime and Arrest Database (BUDT 702, Team Project)* — *Fall 2025*
- Designed entity-relationship diagram and schema (eight tables) with 20 business rules; co-wrote SQL queries.

*North Peak Coffee Store Analysis (BUDT 705, Individual Project)* — *Fall 2026*
- Built three-dashboard Tableau Story showing store count grew 33% while revenue per store grew 5%, drive-thru stores earned about 40% more in small cities, and competitor count showed no significant link to revenue.

## LEADERSHIP

- Membership Development Officer, IEEE – VBIT (July 2023 – May 2025): grew student engagement 25–30% through outreach.

## DISTINCTIONS

- Terrapin Scholar Award ($5,000), awarded for academic excellence, leadership, and professional promise.
- Interests: Formula 1 (strategy and technology), cooking, tech reviews, poker, reading philosophy, Roblox world-building.
